

QUALITY POLICY

Our company is committed to providing innovative high quality products that meet and/or exceed the expectations, requirements and the needs of our customers and shareholders(suppliers and employee) as flexibility.

This includes:

Maintaining a shared quality vision and focus on continuous improvement to our products, processes and delivery based quality, price and just-in time delivery criterias.

Involving high technology in the production based on first time true criteria.

Meeting all current requirements for national and international regulations.

Management will continuously support and review this defined quality policy.
